

Dear county executive officers, council officers,

Thank you for taking care of county matters and organizing COVID hearing on behalf of county residents.

I would like to testify that vaccine passport is a violation of US constitution and was ruled out by supreme court justices on 1/12/2022., I.e. mandating either vaccine or testing is a violation of US constitution. I am very confident that none of residents including elected officers like you will disrespect or contempt such ruling from the highest court of this land, and no one will agree to spend taxpayers' money at follow-on law suit against Supreme Court ruling. It is noted that three Supreme Court justices are county residents.

On the other hand, I am sure you will do your best to ensure our and business needs are met by accepting generous salary paid by residents' taxes Including mine. One of our needs is freedom of choice at living, shopping, Dinning, entertaining, exercising, watching movies and theatre, partying, walking, running, biking, seeing doctors, dressing, having and raising children, schooling, ..... Without such freedom, there is no reason to live in Montgomery county and pay our taxes.

Besides, it is basic medical knowledge that virus with many variants cannot be a good candidate for making a vaccine. Mr. Marc Elrich's covid positive test is a good example that three shots of such kind of vaccines do not give you any immunization, prevent or stop the spreading of any virus at all. I am sure that your doctor did not tell you which variant (or virus) you got either.

Knowing there is no difference between vaccinated and unvaccinated people in fighting the virus/variant, Implementing vaccine passport does not help remove virus from the county space but has strong motive to discriminate and humiliate unvaccinated people with various reasons of not being able to take any vaccines, split families and friends, employers and employees, doctors and patients, .....many more. It is sad that such kind of uncountable damages are non-recoverable.

I appreciate you will make a good decision to benefit and comfort county residents. Let peace and harmony be in the county, No vaccine passport, please.

Thank you so much.

Sincerely,  
Dr. Tang
